

CURRICULUM VITAE

Thomas J. Miller

Chesapeake Biological Laboratory

University of Maryland Center for Environmental Science
P.O. Box 38
Solomons, MD 20688-0038
Phone: 410-326-7276
Fax: 410-326-7318
E-mail: miller@umces.edu
WWW: hjort.cbl.umces.edu

I. Education

1990 Ph.D. Zoology (Oceanography minor). North Carolina State University.
1984 M.S. Ecology. North Carolina State University.
1981 B.Sc. (Hons). Human and Environmental Biology. University of York, UK.

II. Professional Background

2011- present Director, University of Maryland Center for Environmental Science Chesapeake Biological Laboratory
2006- present Professor, University of Maryland Center for Environmental Science Chesapeake Biological Laboratory
2000-2006 Associate Professor, University of Maryland Center for Environmental Science Chesapeake Biological Laboratory
1994-2000 Assistant Professor, University of Maryland Center for Environmental Science Chesapeake Biological Laboratory
1990-1994 Post-Doctoral Fellow, Department of Biology, McGill University
1986-1990 Research Specialist, Center for Great Lakes Studies, University of Wisconsin
1984-1986 Secondary School Teacher, London Borough of Bexley, London, UK

III. Awards and Special Recognition

A. Personal

2015 Excellence in Fisheries Education. Tidewater Chapter, American Fisheries Society.
2015 Regents Faculty Award of Excellence. University System of Maryland Board of Regents.
2014 Mercer Patriarche Award for Best Paper of the Year. American Fisheries Society.
2014 GEMSTONES Outstanding Mentor Award. GEMSTONES Honors Program, University of Maryland.
2008 Graduate Education Award for Excellence in Teaching. MEES Graduate Student Association, University of Maryland
2001 President's Award for Excellence in the Application of Science. University of Maryland Center for Environmental Science.
1998 Graduate Education Award for Excellence in Teaching. MEES Graduate Student Association, University of Maryland
1989-1990 Research Fellow in Population Biology - Electric Power Research Institute/ Sport Fishing Institute.
1987 Best Student Paper Award - American Fisheries Society (North Central Division).
1986 Harkema Award for Graduate Research - North Carolina State University.
1983 Organization for Tropical Studies course participant - OTS/University of Costa Rica.

B. With students

- 2018 H. L. Glandon, Best Student Paper Award, 110th National Shellfish Association Meeting, Seattle, WA.
- 2017 R. Brodrik, NMFS-SG Population Dynamics Fellow 2017-2020.
- 2015 H. A. Lane, Best Paper Award, Annual MEES Graduate Colloquium, Annapolis, MD.
- 2013 N. Bransome. Knauss Fellow 2013-2014
- 2011-2013. A. R. Colton. Presidential Management Fellowship. U. S. Fish and Wildlife Service, Blacksburg, VA.
- 2011 A. R. Colton. Best student paper award -Runner Up. Annual Meeting Tidewater Chapter of the American Fisheries Society, Gloucester Point, VA.
- 2008 A. C. Peer. Steven A. Berkeley Conservation Award. American Fisheries Society.
- 2004 K. L. Curti. Best student paper award - Runner-up. Annual Meeting Tidewater Chapter of the American Fisheries Society. Salisbury, MD.
- 2003 O. P. Jensen. Knauss Fellow 2003-2004.
- 2002 O. P. Jensen. Best student paper award. Annual Meeting Tidewater Chapter of the American Fisheries Society, Virginia Beach, VA.
- 2002 M. G. Frisk. NMFS-SG Population Dynamics Fellow 2002-2005
- 2001 M. G. Frisk. Best poster award. Annual MEES Graduate Colloquium. College Park, MD.
- 2000 V. C. Caceres. Sally Richardson Award for Best Student Paper - 24th Annual Larval Fish Conference. Gulf Shores, AL.
- 2000 V. C. Caceres. Best poster award. Annual MEES Graduate Colloquium. Baltimore, MD.
- 2000 M. G. Frisk. Best student paper award. Annual Meeting Tidewater Chapter of the American Fisheries Society, Nags Head, NC.
- 1999 C. J. Heyer. Best Presentation Award. Annual MEES Graduate Colloquium. Frostburg, MD.
- 1999 M. G. Frisk. Best student paper award -Runner Up. Annual Meeting Tidewater Chapter of the American Fisheries Society, Gloucester Point, VA.

IV. Research

A. Areas of Professional Expertise

Recruitment processes in fishes with emphases on life history, feeding, growth, size-dependent processes, physical-biological interactions, spatial and temporal variability; Blue crab ecology and exploitation; Population dynamics and stock assessment; Quantitative methods in ecology with emphasis on modeling, experimental design and statistics.

B. Peer-Reviewed Publications

1. Papers in Refereed Journals or Books

Glandon, H. L., H. K. Kilbourne and T. J. Miller. 2019. Winter is (not) coming: warming temperatures will affect the overwinter behavior and survival of blue crab. *PLoS One* 000:000-000

Stevens, B. G. and T. J. Miller. 2019. Crab Fisheries. Chapter 6 in G. Lovrich and M. Theil (eds) *The Natural History of the Crustacea. Vol IX. Fisheries and Aquaculture.* Oxford University Press. Oxford, UK.

Glandon, H. L., K. T. Paynter, C. L. Rowe and T. J. Miller 2019. Resilience of juvenile blue crab, *Callinectes sapidus*, oxygen consumption rates to future predicted increases in environmental temperature and $p\text{CO}_2$ in the mesohaline Chesapeake Bay. *Journal of*

C. Contracts and Grants

1. Pending
 - Assessment of Promoters in Oyster Yields. Maryland Industrial Partnership Scheme (MIPS). February 2019-January 2020. \$79,389
2. Current
 - Automated Oyster Aquaculture with Solar Energy. Maryland Industrial Partnership Scheme (MIPS). February 2019-January 2020. \$79,389
 - Dredge operations and blue crab. Maryland Port Administration. January 2019- December 2020. \$308,999
 - Enhancing settlement of oyster larvae for commercial aquaculture. Maryland Industrial Partnership Scheme (MIPS). February 2017-January 2019. \$150,248
 - FY2017 NMFS/Sea Grant population and ecosystem dynamics fellowship (Reed Michael Brodnik) Analysis of the spatial and temporal structure and dynamics of the norther Atlantic black sea bass (*Centropristis striata*) stock – impacts of misspecification of

spatial structure on assessment and stock on reliability of reference points. MD Sea Grant. August 2017 – July 202. \$114,785.

3. Former

A hook and line survey to assess the spatial dynamics of black sea bass. NOAA Saltonstall-Kennedy Program. June 2015 – May 2018. 392,959 (Principal Investigator).

Evaluation of environmental factors influencing blue crab populations. Chesapeake Bay Trust. January 2017 – February 2018. \$49,5879 (Co-Principal Investigator)

Analysis of blue crab survey data and reproductive output to assess causes of population variability. Chesapeake Bay Trust. January 2015 – December 2015. \$81,293

Evaluation of options for controlling rope grass hydroid colonies in power plant intake pipes. Constellation Energy. January 2014 – December 2015. \$4,581,130. (Principal Investigator, 0% Time).

Developing ecosystem-based reference points for the Atlantic menhaden fishery. Lenfest Ocean Program. December 2012 – November 2014. \$321,926 (Principal Investigator, 7% time).

Collaborative research: The influence of nursery area diversity and population structure on the population dynamics of marine fishes. National Science Foundation. May 2010 – April 2013. \$390,058. (Co-Principal Investigator, 7% Time).

CAMEO: Patterns of connectivity in northwest Atlantic fishery ecosystems. National Science Foundation. \$676,470. July 2010 – June 2013. (Co-Principal Investigator, 7% time).

Intrapopulation biodiversity and recruitment pathways for Chesapeake Bay striped bass. Maryland Sea Grant. Feb 2008 - Jan 2011. \$200,134.00. (PIs: Miller, T. J., David H. Secor, A. Place, 7% time).

Technical Support for Maryland Chesapeake Bay Oyster Stock Assessment, Monitoring and Management. Maryland Department of Natural Resources. Jan –Dec 2008. \$399,935 (Co-Principal Investigator, 2% time)

A survey of the commercial blue crab effort in the Maryland portion of the Chesapeake Bay, 2009-2010. April 2009-March 2011. \$335,967. (Co-Principal Investigator, 7% Time).

FishSmart: Enhancing the sustainability of recreational fisheries through improved management and angling practices. Betty and Gordon Moore Foundation. Jan. 2007 – August 2010. \$612,013. (Principal Investigator, 14% time).

Developing spatially-explicit assessment tools for eastern oyster in Chesapeake Bay. Maryland Department of Natural Resources. Jan 2008-December 2009 (Co-Principal Investigator, 7% Time).

Probing the population structure of Atlantic menhaden (*Brevoortia tyrannus*) in the mid-Atlantic. National Oceanic and Atmospheric Administration - Chesapeake Bay Office. Oct. 2005 - Sept. 2008. \$125,549 (Yr 1; Co-Principal Investigator, 7% time).

Development of bioeconomic models for blue crabs in the Chesapeake Bay. Maryland Sea Grant. Feb. 2005 - Jan 2007. \$61,966. (Principal Investigator, 7% time).

Program Development Funds: Development of genetic tools for recruitment studies of striped bass. Maryland Sea Grant. Jan 2008 - Dec 2008. \$15,000.00. (PIs: Miller, T. J., A. Place, 0% time).

Do environmental conditions in nursery habitats contribute to a mismatch in (growth and) production of young Atlantic menhaden (*Brevoortia tyrannus*) and striped bass (*Morone saxatilis*). Atlantic States Marine Fisheries Commission. Oct. 2005 – May 2010. \$290,596 (Yr 1; Co-Principal Investigator, 7% time).

The impact of correlated recruitments in multispecies models. National Oceanic and Atmospheric Administration - Chesapeake Bay Office. June 2004 - May 2006. \$102,9457 (Principal Investigator, 7% time).

Development and implementation of the Chesapeake Bay fishery-independent multispecies fisheries survey. National Oceanic and Atmospheric Administration - Chesapeake Bay Office. Jan. 2001 - April 2006. \$1,183,754. (Lead Co-Principal Investigator, 7% time).

- Delaware estuary ecosystem reconstruction and enhancement. PSEG Services Corporation. Jan. 2004 - Feb 2006. \$211,371. (Principal Investigator, 3% time).
- Ecosystem variability and estuarine fisheries: a synthesis. National Oceanic and Atmospheric Administration - Coastal Ocean Program. Oct. 2002 - Sept. 2005. \$1,377,218. (Lead Co-Principal Investigator, 7% time).
- Chesapeake Ecotox Research Project: Quantifying ecological risks of contaminated sediments on living resources in supporting decisions on habitat restoration strategies in the Chesapeake Bay. National Oceanic and Atmospheric Administration. Jan. 2000 - Dec. 2005. \$2.5 M. (Co-Principal Investigator, 7% time).
- Graduate Fellowship: Geographic variation in the life history traits and population dynamics of western Atlantic skates. National Sea Grant Program. May 2001 - April 2005. \$95,000. (Principal Investigator, 7% time).
- Quantifying the status of terrapins in Maryland waters of Chesapeake Bay. Maryland Department of Natural Resources - Fisheries Service. April 2003 - Aug. 2004. \$59,830. (Co-Principal Investigator, 7% time).
- Fishery-independent multispecies assessment of Maryland fish populations: A case study in the Patuxent River. Maryland Department of Natural Resources. Sept. 2003 - Aug. 2004. \$97,967. (Principal Investigator, 7% time).
- Assessment of blue crab stock in the Chesapeake Bay. National Oceanic and Atmospheric Administration - Chesapeake Bay Office. Oct. 2003- Sept. 2004. \$187,577 (Lead Co-Principal Investigator, 7% time).
- Winter mortality of Chesapeake Bay blue crabs, *Callinectes sapidus*. Maryland Sea Grant. Feb. 2002 - July 2004. T. J. Miller and A. Hines. \$229,770.
- Spatially-explicit modeling of blue crabs to understand the role of critical habitat. National Sea Grant Office. November 2000 - September 2001. R. M. Lipcius, T. J. Miller et al. \$462,422.
- The spatial dynamics of blue crab in Chesapeake Bay. Maryland Sea Grant. T. J. Miller. Feb. 2000 - Jan. 2002. \$99,981.
- Recruitment mechanisms in yellow perch (*Perca flavescens*): Interactions among growth, condition and predation. University of Wisconsin Sea Grant. F. P. Binkowski, T. J. Miller and J. A. Rice. Feb. 2000 - Jan. 2002. 245,125.
- Individual growth and population dynamics of blue crab (*Callinectes sapidus*) in the Hudson River. Hudson River Foundation. T. J. Miller and D. A. Wright. Sept. 1998 - Aug. 2001. \$206,000.
- Developing blue crab targets. Chesapeake Bay Commission. T. J. Miller. October 2000- September 2001. \$17,350.
- Improvements to the stock assessment of Chesapeake Bay blue crab: implications of blue crab size-at-age. National Oceanic and Atmospheric Administration. T. J. Miller. Oct. 1999 - Sept. 2000. \$ 39,649.
- Design for a recreational fishing survey and mark-recapture study for the blue crab, (*Callinectes sapidus*), in Chesapeake Bay. NOAA Chesapeake Bay Stock Assessment Committee. T. J. Miller and M. J. Fogarty. Oct. 1998 - Mar 2000. \$157,411.
- Augmentation of Blue Crab Pilot Recreational Fishing Survey. Maryland Department of Natural Resources. T. J. Miller and M. J. Fogarty. Oct. 1999 - Jun. 2000. \$25,000.
- The spatial framework of natural resources management: sources, sinks and reserves. Maryland Sea Grant. T. J. Miller, M. J. Fogarty, and C. M. Jones. Jan. 1999 - Dec. 2000. \$3,000
- Design of a whole organism micro-respirometry system to enhance environmental toxicology studies in coastal ecosystems at the Chesapeake Biological Laboratory. National Science Foundation. K. R. Tenore and 7 PIs. Oct. 1999 - Sept. 2000. \$48,854
- Importance of vertical relief to use of oyster reefs by commercially and recreationally important fishes and blue crab. U. S. EPA - CBP. D. L. Breitburg and T. J. Miller. May 1998 - Sept. 1999. \$43,218.

- Recruitment mechanisms in yellow perch (*Perca flavescens*): Interactions among growth, condition and predation. University of Wisconsin Sea Grant. F. P. Binkowski, T. J. Miller and J. A. Rice. Feb. 1998 - Jan. 2000. 245,125.
- Design for a recreational fishing survey and mark-recapture study for the blue crab, *Callinectes sapidus*, in Chesapeake Bay. NOAA/NMFS. M. J. Fogarty and T. J. Miller. Oct. 1997 - Sept. 1998. \$34,833.
- Chesapeake Bay stock assessment committee: plans and priorities for research. National Oceanic and Atmospheric Administration. T. J. Miller. Jan. 1997 - Dec. 1997. \$14,985.
- Laboratory studies on the influence of small-scale turbulence on encounter and ingestion rates of planktonic predators. National Science Foundation. T. J. Miller, L. Sanford and V. S. Kennedy. Oct. 1996- Mar. 1998. \$49,495
- An assessment of the fishing activity around Poole's Island dredge material placement sites. Maryland Environmental Services. T. J. Miller. Oct. 1996 - Sept. 1997. \$20,688.
- Pre-disposal survey of fish community structure around Site 104. Maryland Environmental Services. T. J. Miller. Jul. 1996 - Oct. 1997. \$166,451.
- Fish community structure around Poole's Island dredge spoil placement sites. Maryland Environmental Services. T. J. Miller. May 1996 - Oct. 1997. \$56,956.
- Development of an outdoor seawater facility to increase research capabilities. National Science Foundation. K. T. Tenore and 7 co- PIs. Apr. 1996 - Mar. 1999. \$83,594.
- Chesapeake Bay fisheries: prospects for multispecies management and sustainability. United States Environmental Protection Agency - Chesapeake Bay Program Office Scientific and Technical Advisory Panel. E. D. Houde and T. J. Miller. May 1995- Dec. 1995. \$5,000.
- Blue crab target setting. U.S. Environmental Protection Agency. E. D. Houde, T. J. Miller and J. Volstad. May 1995 - Apr. 1998. \$73,300.
- On the size-dependent mechanisms regulating recruitment dynamics in fishes. Electric Power Research Institute/Sport Fishing Institute. T. J. Miller and L. B. Crowder. Jan. 1989 - Dec. 1990. \$29,908.
- Integrating factors controlling recruitment dynamics in fishes: A synthesis based on larval size. University of Wisconsin Sea Grant Program. F. P. Binkowski. Sept. 1988-Aug. 1992. \$154,775.
- The role of drag in controlling net site selection in net-spinning caddis larvae. Department of Zoology. North Carolina State University. T. J. Miller. Jul. 1986 - Jul. 1987. \$495.

D. Invited Seminars and Presentations

1. Seminars

- The Future Ocean. Stephenson Science. Dartford Grammar School, Dartford, UK.
- Blue crab: ecology and exploitation in a changing climate. School of Marine and Atmospheric Science, Stony Brook University. October 2015
- Ninety Years of Beautiful Swimmers. Louisiana State University. Baton Rouge, LA. March 2015
- The Future of Fisheries Management in the Chesapeake Bay. Chesapeake Environmental Protection Association Annual Forum. April 2013
- FishSmart: A stakeholder-centered approach to recreational fisheries management. School of Public and Environmental Affairs, Indiana University. November 2010.
- Blue crab studies at CBL: Continuity, collaboration and conservation. Chesapeake Biological Laboratory, University of Maryland Center for Environmental Science, Solomons, MD. September 2009.
- FishSmart: A stakeholder-centered approach to recreational fisheries management. U.S. Environmental Protection Agency. NOAA. Silver Spring, MD. Apr 2009.
- FishSmart: Empowering marine recreational anglers in management. U.S. Environmental Protection Agency. Ecosystem Services Research Program. Washington DC. Jan 2009.

- Ecology of blue crab in Chesapeake Bay: If King Charles I had only known. McDaniel College, Westminster, MD. Feb 2008.
- Scales of recruitment processes in fish: the role of physical processes. Center for Coastal Physical Oceanography. Old Dominion University, Norfolk, VA. March 2006.
- Ecology of blue crab in Chesapeake Bay: If King Charles I had only known. Department of Evolution, Ecology and Organismal Biology. Ohio State University, Columbus OH. May 2005.
- Ecology of blue crab in Chesapeake Bay: If King Charles I had only known. Horn Point Laboratory, Cambridge, MD. Feb 2006.
- Ecology of blue crab in Chesapeake Bay: If King Charles I had only known. Chesapeake Biological Laboratory, Solomons, MD. Feb 2006.
- Ecosystem-based fishery management: Lessons and Needs. Department of Natural Sciences. University of Maryland-Eastern Shore, March 2005.
- Precautionary management of blue crab. Chesapeake Biological Laboratory. September 2002.
- Ecology and management of blue crab in Chesapeake Bay. St. Mary's College of Maryland. November 2001.
- Biophysical interactions in the feeding of young fish. Chesapeake Biological Laboratory. September 1999.
- Biophysical interactions in the feeding of young fish. Virginia Institute of Marine Sciences. Gloucester Point, VA. November 1998.
- Application of stage-based approaches to understanding the population dynamics of marine organisms. Virginia Institute of Marine Sciences. Gloucester Point, VA. November 1998.
- Does physics control feeding in young fish? Academy of Natural Sciences, Estuarine Research Laboratory. Benedict, MD. May 1998.
- The feeding ecology of larval fish. Department of Biology, Old Dominion University, Norfolk, VA. February 1998.
- The feeding ecology of larval fish. Department of Biology, Queen Mary and Westfield College, University of London, U. K. July 1997.
- Biology, physics and the ecology of fish larvae. Institut Maurice-Lamontagne, Department of Fisheries and Oceans, Canada. March 1997.
- From individuals to populations: unraveling recruitment mechanisms in Atlantic cod. Department of Biology. Horn Point Environmental Laboratory, University of Maryland. March 1996
- From individuals to populations: unraveling recruitment mechanisms in Atlantic cod. Department of Biology. St. Mary's College of Maryland. October 1995
- From individuals to populations: unraveling recruitment mechanisms in Atlantic cod. Department of Biology. Towson State University. October 1995.
- Unraveling recruitment in Atlantic cod: An OPEN perspective. Department of Biology, Queen's University, Kingston, Ont, Canada. March 1995.
- Variability during early life history of fish: A case study with Atlantic cod, (*Gadus morhua*). Chesapeake Biological Laboratory, University of Maryland. April. 1994.
- Linking individual variability and survival in larval fishes. Northwest Atlantic Fisheries Centre, Department of Fisheries and Oceans, St Johns, Newfoundland. January 1994.
- The feeding ecology of larval fishes. Department of Biological Sciences. University of Bristol. September 1993.
- The role of small-scale turbulence in regulating feeding during early life history of fishes. Department of Biology, McGill University. Montreal, PQ, Canada. September 1992.
- Size-based interactions between zooplankton and bloomers in Lake Michigan: Implications for year class strength. Department of Biology, McGill University. Montreal, PQ, Canada. Nov 1991.
- The role of body size in regulating feeding success in larval and juvenile fishes. Department of Zoology, North Carolina State University. Raleigh, N.C., Sept 1990.

The role of current in net-site selection in net-spinning caddisflies. Department Entomology, North Carolina State University. Raleigh, N.C., Oct 1986.

Bryce J. Brylawski. 2002. The individual-based growth modeling of the Chesapeake Bay blue crab (*Callinectes sapidus* Rathburn). MEES, University of Maryland College Park.. May 2002.

Veronica Caceres Chomorro. 2001. The effects of small scale turbulence in the feeding ecology and swimming speed of fathead minnow larvae (*Pimephales promelas*), inland silverside larvae (*Menidia beryllina*) and the lobate ctenophore (*Mnemiopsis leidyi*). MEES, University of Maryland College Park. May 2001.

Edith A. Evarts. 2001. Analysis of juvenile striped bass, *Morone saxatilis*, abundance and growth in the Nanticoke River, Maryland using otolith back-calculation methods. MEES, University of Maryland College Park. May 2001.

Michael G. Frisk. 2000. Estimation and analysis of biological parameters in elasmobranch fishes and the population dynamics of little skate *Raja erinacea*, winter skate *R. ocellata* and barndoor skate *R. laevis*. MEES, University of Maryland College Park. Co-supervised with M. J. Fogarty. December 2000.

Karyl K. Brewster-Geisz. 2000. The effect of various management strategies on the recovery of the sandbar shark (*Carcharinus plumbeus*): implications from stage-based and yield per recruit models. MEES, University of Maryland College Park. December 2000.

Christopher J. Heyer. 2000. Understanding maternal effects as a recruitment mechanism in Lake Michigan yellow perch (*Perca flavescens*). MEES, University of Maryland College Park. May 2000.

2. Students Currently Supervised

Reed Brodnik, Ph.D. MEES UMCES-UMCP Joint Program. Analysis of the Spatial and Temporal Structure and Dynamics of the Northern Atlantic Black Sea Bass (*Centropristis striata*) Stock - Impacts of Misspecification of Spatial Structure of Assessment and Stock on Reliability of Reference Points. Matriculated August 2015

Mehaffie, Nicole, M.S. MEES, UMCP. Contribution of diadromous species to the trophodynamics of northwest Atlantic marine ecosystems. August 2010.

3. Current Graduate Student Committee Memberships

Laura Almodovar-Acevedo	PhD	MEES	UMES
Shadaesha Green	PhD	MEES	UMCP/UMCES
Kathryn Lankowicz	MS	MEES	UMCP/UMCES

4. Research Internships Supervised

a. Undergraduate

Aisha Rawlinson	UMES	June - Aug 1999	MDSG – REU	Feeding ecology of ctenophores
Ariel Settles	Morgan State	June - Aug 1999	Truitt Fellow	Blue crab growth
Hind Eloukkal	Southampton College	Jan. - May 1999	Intern	Yellow perch ecology
Vanessa Javor	Southampton College	Jan. - May 2000	Intern	Yellow perch ecology
Holly Abeels	Southampton College	Jan. - May 2001	Intern	Multispecies fisheries
Andrew Fields	Southampton College	Jun. - Aug. 2001	Intern	Multispecies fisheries

Philip Pollitis	Southampton College	Feb - May 2002	Intern	Multispecies fisheries
Tonya Reissenauer	Southampton College	June - Aug 2003	Intern	Elasmobranch ecology
Curtis Anderson	Southampton College	June - Aug 2004	Intern	Multispecies fisheries
Jennifer Hurt	UW - Stevens Point	June - Aug 2004	MDSG -REU	Multispecies fisheries
Morton Limborg	U. Copenhagen	Sept - Dec 2004	Intern	Multispecies fisheries
Andy Ostrowski	UNC-Wilmington	June- Aug 2005	MDSG-REU	Menhaden production
Eloy Martinez	University of Puerto Rico	June- August 2006	MDSG REU	Blue crab RNA:DNA ratios
Megan Gluth	UMBC	June – August 2007	Intern	Croaker bioenergetics
Jamie Smith	McDaniel College	June – August 2008	Intern	Menhaden production
Mike Selkman	St. Mary's College	June – August 2010	Intern	Striped bass recruitment
Brendan Runde	Virginia Tech	June – August 2010	Intern	Crab effort survey
Danci Johnson	U. Oklahoma	June - Aug 2017	MDSG – REU	Settlement and growth of oyster in aquaculture systems

b. High School

Lynna Kierre	Patuxent HS	Jan - Mar 2004	Calvert County Mentoring Program	Growth and distribution of spot in Chesapeake Bay
Kayley Snyder	Calvert HS	Jan - Mar 2005	Calvert County Mentoring Program	Growth and distribution of croaker in Chesapeake Bay
David Kent	Northern HS	Sept-Dec 2006	Calvert County Mentoring Program	Modeling striped bass- menhaden interactions
Sarah Michaels	Patuxent High School	June – Aug 2007	Research Assistant	Menhaden growth
Michelle Schrieber	Northern High School	Jan- April 2010	Calvert County Mentoring Program	Growth and diet of croaker in Chesapeake Bay
Daniel Carroll	Calvert High School	Jan – August 2010	Research assistant	Striped bass energetics
Megan Bethge	Northern High School	Oct – Dec 2010	Calvert County Mentoring Program	Conservation of turtles

V. Outreach and Service

A. Editorships

Transactions of the American Fisheries Society, Associate Editor (1999-2008)
Blue crab biology symposium proceedings, Bulletin of Marine Science, Associate Editor (2000-2001)

B. Public Service

Featured in *Beautiful Swimmers, Revisted*
Frequent coverage in *Bay Journal*, *Annapolis Capital*, *Washington Post*, *Baltimore Sun*

C. Federal/State/Local Government

National Academies of Science, Engineering and Medicine, Ocean Studies Board (2019-2021)
National Academies of Science Panel on the Marine Recreational Information Program (2016 - 2017)
Governor's Appointee to the Patuxent River Commission (2015 – present)
Governor's Appointee to the Board of Directors of the Chesapeake Bay Trust (2014 – present)
Governor's Appointee to Maryland Panel on Ocean Acidification (2014)
Member, Gulf Coast Ecosystem Restoration Science Program Advisory Working Group (RSPAWG, 2014 - 2017)
ASMFC Tautog Stock Assessment Review (2012-2014)
National Research Council. Bay Delta Conservation Plan Review Panel (2010 – 2012)
National Research Council. Panel of San Francisco Bay and Delta (2010 – 2012)
Chair, NEFSC Data Poor Stock Assessment Committee (2008)
Science Advisor to Potomac River Fisheries Commission (2005- present)
Chair ASMFC Tautog stock assessment review team (2005)
Member ASMFC Management Committee (2006- present)
Member NOAA Chesapeake Bay Fishery Ecosystem Plan Workgroup (2000-2014).
Member Scientific and Technical Committee, Mid-Atlantic Fishery management Council, 2001-present, Vice-chair 2009- present).
Member South East Data Assessment and Review Team for NOAA Southeast Fisheries Science Centers stock assessments of Atlantic croaker and Atlantic menhaden (2003 - 2008).
Member Chesapeake Bay Stock Assessment Committee (1999-present).
Member Technical Subcommittee of the Bi-State Blue Crab Advisory Committee (1999-2003).
Stock Assessment Review Committee for the NEFSC, Summer 1997

D. International

Co-chair International Council for the Exploration of the Seas (ICES) Working Group on Recruitment Processes (April 2002 - 2009).
International Council for the Exploration of the Seas (ICES) Working Group on Physical-Biological Interactions (April 2006 - 2012).

E. University System of Maryland

University System of Maryland Academic Transformation Assessment Committee (2013-present)
Chair, MEES Curriculum Revision Committee (2013-2015)
Fisheries AOS Committee (MEES Program, Univ. System of Maryland, 1994 – present, Co-chair 2003 - 2010)
Ecology AOS Committee (MEES Program, Univ. System of Maryland, 1994 - 2002)
MEES Director Search Committee (1999)

F. UMCES and Laboratory

Chair, CBL Graduate Education Committee (1998-2010)
Fisheries Science Faculty Search Committee 1999
Fisheries Faculty Search Committee in Stock Assessment 2000-2002
Toxicologist Faculty Search Committee 2000
Ecologist Faculty Search Committee 2008
CBL FRA Promotions Committee (2000-2007)
UMCES Faculty Senate (2003 - Present, Vice Chair 2005)
UMCES Five-year faculty review committee (2006/2007)
CBL Promotions and Tenure Committees (2003-present)
CBL Director's search (2004)
CBL Senate Representative (2004- 2007)
Chair, CBL Faculty Search Committee 2010

Organized informal brown bag seminar series. 1994-2005, 2011-present.

G. Other Professional Service

Program Review – Quantitative Fisheries Center, Michigan State University, 2013
Promotion review for Colorado State University, Cornell University, North Carolina State University, Ohio State University, Rutgers University, Simon Fraser University, University of Maine, University of Southern Mississippi, University of Texas.
Proposal Review panel Member, Virginia Sea Grant, 2002- 2008
Manuscripts reviewed for CJFAS, Estuarine, Coastal and Shelf Science, Fishery Bulletin
Fisheries Oceanography, Journal of Experimental Marine Biology & Ecology, Marine Ecology Progress Series, Transactions of the American Fisheries Society,
Proposals reviewed for NOAA, Michigan Sea Grant, North Carolina Sea Grant, Hudson River Foundation, Great Lakes Foundation, National Science Foundation
